圆形集装袋 Round container bag

方形集装袋 Square container bag

U形集装袋 U-shaped container bag

散装货物集装袋 Bulk cargo container bag

小包装货物集装袋 Small packages container bag

## 企业管理

### BUSINESS MANAGEMENT

烟台维佳塑料制品有限公司，位于烟台市莱山区盛泉工业园，主要从事集装袋的生产和加工。产品主要销往日本、美国、加拿大、韩国、东南亚及欧盟市场。

产品定位于中高端，做工精细，严格检验是维佳品牌战略成功的保障。

主要产品有：圆形集装袋、方形集装袋、内拉筋集装袋、拉边集装袋、耐候沙土集装袋、导电袋、防静电袋、底兜、透气袋、罩布和网兜袋等。

公司坚持“以最好的价格为客户提供最好的服务，追求与客户共同发展”的经营理念，期待与您合作，共同发展。

Yantai Weijia plastic products Co., Ltd., located in Shengquan Industrial Park, Laishan District, Yantai China, mainly engaged in the production and processing of container bags. Products are mainly sold to Japan, the United States, Canada South Korea, southeast Asia and the European Union market.

The production positioning trend in the high-end development, and the product is provided with fine workmanship. The strict inspection process is the guarantee of Weijia brand strategy success.

Our company's main products: round container bag, square container bag, inner drawstring container bag, pull edge container bag, weather resistant sand container bag, conductive bag, antistatic bag, bottom pocket, ventilation bag, cover cloth, net pocket bag etc.

The company adheres to "provide the best products and services for customers at the best price, and pursue the business philosophy of common development with customers.". We are looking forward to cooperating with you for common development.

## 企业管理

### BUSINESS MANAGEMENT

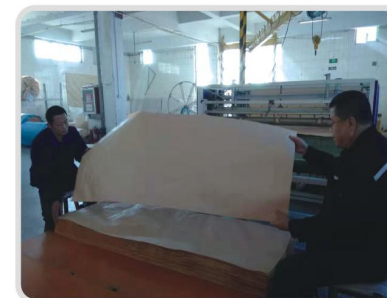

品牌的核心价值是品牌成功的关键，“质量第一，客户至上，技术创新”的经营理念，是维佳品牌战略的基础，雄厚的技术力量，先进的设备设施、优越的生产环境、可靠的质量管理体系是维佳品牌战略成功的保障。

公司在2011年7月通过了《ISO9000质量体系认证》，2011年11月取得了《出口危险货物包装容器许可证》

The core value of the brand is the key to the success of the brand. The business philosophy of "quality first, customer first, technological innovation" is the basis of Weijia brand strategy. The strong technical force, advanced equipment and facilities, superior production environment and reliable quality management system are the guarantee for the success of Weijia brand strategy. Our company passed ISO9000 in July 2011 and obtained the export license for packaging containers of dangerous goods in November 2011.

## 产品介绍

### PRODUCT INTRODUCTION

公司生产的集装袋，具有防潮、防渗漏、无铅无毒、耐老化、去静电、净化除尘、拉力强度高、坚固耐用、安全系数高等特点，广泛用于化工、建材、食品、医药、矿产等领域。可盛装各类粉状、颗粒、块状物品，是仓储、运输等行业的理想包装。

The container bags produced by our company have the characteristics of moisture-proof, anti-seepage, lead-free and non-toxic, aging resistance, electrostatic removal, purification and dust removal, high tensile strength, durability, high safety coefficient, etc., which are widely used in chemical industry, building materials, food, medicine, minerals and other fields. It can hold all kinds of powder, granule and block goods. It is the ideal packaging for warehousing, transportation and other industries.

△集装袋按形状分为：圆形、方形和U形体三种，承重量在0.2~3 T、容积200~2000L之间，可根据需求进行定制。

△集装袋分为散装货物和小包装货物两大类，可一次性和多次周转使用；

△按起吊结构分为顶吊型和底吊型；

△按吊带形式分类有跨角吊带、兜底吊带、井字兜底；

△按进料口形状分类有小料口、全开式；

△按出料口形状分有平底、小料口、全开式。

△ The container bags are divided into three types according to their shapes: round, square and U-shaped, with a bearing capacity of 0.2-3 T and a volume of 200-2000 L, which can be customized according to the requirements.

△The container bags are divided into bulk goods and small package goods, which can be used in one-time or multiple times;

△ According to the lifting structure, it can be divided into top lifting type and bottom lifting type;

△ According to the types of sling belt, there are cross angle sling bele, bottom sling belt and well shaped sling belt;

△ According to the shape of the charge spout, there are small charge spout and full open charge spout type;

△ According to the shape of the discharge spout, it can be divided into flat bottom, small discharge spout and full open discharge spout type.

一款不用工具也能搬运的小巧规格, 适合高比重的装填物。  
容积: 200L

A small size which can be carried without tools, suitable for high specific gravity filling materials.  
Volume: 200L

小巧款式, 有防止横胀的加强围带。  
容积: 200L

Compact style, with reinforced strap to prevent horizontal expansion.  
Volume: 200L

方形可多次使用的袋子, 一款性价比很高的产品。  
容积: 900L

Square reusable bag, a cost-effective product.  
Volume: 900L

用于户外堆放保管的袋子, 耐候性1年以上。  
容积: 1000L

The bag used for outdoor storage has a weather resistance of more than 1 year.  
Volume: 1000L

底部全开式样, 内容物很容易排出。  
容积: 300L

The bottom is fully open, and the contents can be easily discharged.  
Volume: 300L

小规格的方形袋子, 推荐用于轻量物品的运输或垃圾分类。  
容积: 350L

Small sized square bags are recommended for transportation of light goods or waste classification.  
Volume: 350L

基布是1mm方孔的透气布, 有很好的控水和通透性能。  
容积: 1000L

The base cloth is 1 mm square hole breathable cloth, which has good water control and permeability.  
Volume: 1000L

方形的可多次使用的产品, 适合承装各种产业废弃物。  
容积: 1000L

Square products that can be used many times are suitable for holding various industrial wastes.  
Volume: 1000L

内部装有支撑, 能很好地立地成形, 搬运也很方便。  
容积: 300L

It is equipped with support inside, which can form a good site and is convenient to carry.  
Volume: 300L

本体基布双层, 防穿透性能好, 用于承装形状不规则的物品。  
容积: 850L

The body is double-layer, with good penetration resistance, and is used to hold articles with irregular shape.  
Volume: 850L

底部和袋体均采用双层基布, 吊带井字形, 适合承装高比重物品。  
容积: 1000L

The bottom and bag body are made of double-layer cloth and sling well shape, which is suitable for carrying high-density goods.  
Volume: 1000L

底部有排料口, 采用透气基布缝制, 可多次使用。  
容积: 1000L

There is a discharge spout at the bottom, which is sewn with breathable cloth and can be used for many times.  
Volume: 1000L

耐热100℃, 加装PP内衬袋, 更好地起到耐热防漏效果。  
容积: 900L

Heat resistant 100 °C, add PP liner bag, better heat resistance and leak proof effect.  
Volume: 900L

采用经纬缝隙编织, 使内容物的水分易于蒸发和空气通透。  
容积: 800L

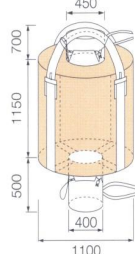

The warp and weft gap knitting is adopted to make the moisture in the contents easy to evaporate and the air is transparent.  
Volume: 800L

小口径的投入口和排出口, 两点和四点起吊皆可。  
容积: 1000L

For small charge spout and discharge spout, two or four point lifting is acceptable.  
Volume: 1000L

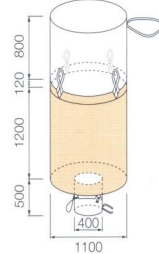

底部带有翻转搬运带, 使卸料变得轻松随意。  
容积: 1000L

The bottom has a flip belt, which makes unloading easy.  
Volume: 1000L

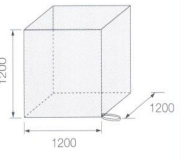

小口径的出入口，化工行业最常用的式样。  
容积：1050L

Small charge spout and discharge spout, the most commonly used style in chemical industry.  
Volume: 1050 L

圆形的4吊点吊绳结构袋子，全开式入口，适合吊钩起吊作业。  
容积：1100L

Round 4-point lifting rope structure bag, full open charge spout, suitable for hook lifting operation.  
Volume: 1100L

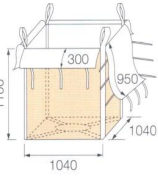

PE材质罩布，涂铝膜，有优良的防紫外线、防尘、防雨雪性能，用于堆放物品的防护。

PE covering bag, laminated with aluminum, has excellent anti ultraviolet, dust, rain and snow performance, used for the protection of stacked items

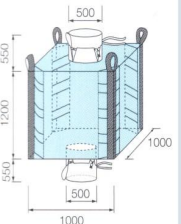

超级耐候性罩布，抗紫外线银色覆膜，用于长期存放室外物品的保护。

Super weather resistant cover bag, anti ultraviolet silver film, for long-term storage of outdoor goods protection

可套在支撑架上使用，适合建筑工地或工业废弃物的搬运周转。  
容积：1200L

It can be used on the support frame, which is suitable for the handling and turnover of construction site or industrial waste.  
Volume: 1200L

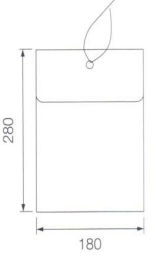

有内支架的式样，最适合承装流动性好的内容物。  
容积：1200L

The style with inner bracket is most suitable for holding the contents with good fluidity.  
Volume: 1200L

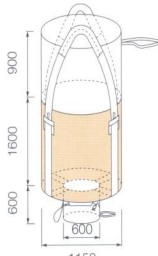

铝箔袋，抗紫外线、防尘防水，用于室内室外存放物品。

Aluminum foil bag, UV resistant, dustproof and waterproof, used for indoor and outdoor storage

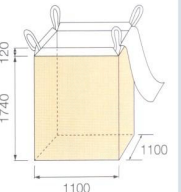

各种材质的文件袋，多种尺寸和式样，是物品生产及保管场所存放标识卡的常用选择。

The card holder of various materials, sizes and styles are the common choice for the identification cards in the production and storage places

大规格圆形集装箱，轻比重物品的盛放和运输很方便。  
容积：1600L

Large size round container bag, easy to put and transport light weight goods.  
Volume: 1600L

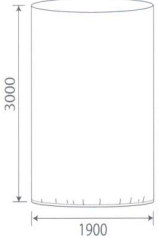

大容量方形，盛放一些轻比重的原料最适合。  
容积：2100L

Large capacity square, suitable for holding some light weight raw materials.  
Volume: 2100L

■ 网兜袋

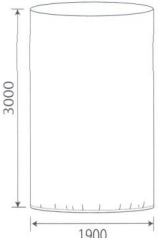

■ 罩布

集装袋的内衬PE吹膜袋，有多种规格和热封式样，用于需要防潮的内容物。

PE liner with many kinds of specifications and heat sealing styles. The contents that need moisture can be set in the container bag.

加厚内衬PE袋，耐穿刺，可用于高比重和有渗透性的物品的充填作业。

Thickened PE liner, puncture resistant, can be used for filling high specific gravity and permeable articles.
